

Fire Truck Inspection & Readiness Checklist

Construction & Infrastructure

COMPLIANCE

Is the operator trained and competent to use the equipment?

☐ Yes☐ No

Is the operator fully compliant with the PPE checklist?

☐ Yes☐ No

Does the driver have a valid driving license and PDP?

☐ Yes☐ No

EQUIPMENT CHECK

Are oil and fuel levels correct, and pumps greased where required?

☐ Yes☐ No

Is the pressure gauge on the wet end system in proper working order?

☐ Yes☐ No

Do hydraulic and backup pumps start easily without major leaks?

☐ Yes☐ No

Are twister adjustable nozzles (17L–150L) available and functional?

☐ Yes☐ No

Are 20mm/25mm brass or twister nozzles available?

Yes

No

Are lay-flat hoses (25mm × 30m × 6) in good condition?

Yes

No

Are lay-flat hoses (38mm × 30m × 6) in good condition?

Yes

No

Are adaptors available for connecting canvas lay-flat hose to rubber hose?

Yes

No

Are two 38mm canvas hose outlets provided?

Yes

No

Is a canvas hose pipe roll-up unit available and functional?

Yes

No

Is adequate lighting available at pumps and control panels?

Yes

No

FIRE STORE CHECK

Is the Fire Store clearly signposted?

Yes

No

Is the Fire Store easily accessible?

☐ Yes☐ No

Does the Fire Store have both internal and external lighting in working order?

☐ Yes☐ No

Is Fire Store housekeeping maintained (neat and clean)?

☐ Yes☐ No

Is all equipment neatly stacked and stored in the Fire Store?

☐ Yes☐ No

Is the stored equipment easily accessible?

☐ Yes☐ No

Is the equipment properly color-coded?

☐ Yes☐ No

Is all Fire Store equipment in good working order?

☐ Yes☐ No

Is an inventory list of equipment available in the Fire Store?

☐ Yes☐ No

Are inspection checklists available and being used?

☐ Yes☐ No

Are torches and LED headlamps functional, with spare batteries available for each

crew member?

Yes

No

MINIMUM STOCK OF TOOL

Is an 8m suction hose with foot valve, strainer, camlock couplings, and float available?

Yes

No

Is an axle with cover available?

Yes

No

Are at least four operational beaters available?

Yes

No

Is a bow saw with spare blade and cover available?

Yes

No

Is an operational drip torch available?

Yes

No

Is a yellow petrol jerry can or brown diesel jerry can clearly marked and available?

Yes

No

Is an orange jerry can for drip torch fuel available?

Yes

No

Are four operational knapsack pumps available?

Is there at least 25L of drinking water clearly marked as “Drinking Water”?

Are four rake hoes with covers and one spade available?

TOOL BOX CHECK

Are jumper leads (>800 amps, 4.5–8m long) available?

Does the toolbox include screwdrivers (medium, large, Philips), fencing pliers, shifting spanner, and spark plug spanner?

Does the toolbox contain spark plugs and starter ropes for pumps?

Are O-ring seals for 38mm and Geka couplings included in the toolbox?

Does the toolbox have clamps that fit both lay-flat and rubber hoses?

Does the toolbox include a box of matches in a waterproof bag?

VEHICLE CHECK

Are all grease nipples lubricated as per the vehicle handbook?

Yes

No

Are oil, fluid, and water levels correct?

Yes

No

Does the engine start easily?

Yes

No

Are all instruments and warning lights functional?

Yes

No

Are head, tail, park, brake, and indicator lights functional?

Yes

No

Are the horn/hooter and LED lights working properly?

Yes

No

Is a serviced fire extinguisher of correct type and size available?

Yes

No

Is a jack, wheel spanner, and warning triangle set available (jack suitable for vehicle)?

Yes

No

Are all tyres, including spares, in good condition and inflated as per manufacturer's standards?

Yes

No

Is the recommended tyre pressure clearly displayed above each wheel?

Yes

No

Are reflectors/reflective strips covering at least 80% of vehicle length?

Yes

No

Are rear-view mirrors present and in good condition?

Yes

No

Are seat belts present and functional in the cab?

Yes

No

Are rubber covers on pedals in good condition?

Yes

No

Are two wheel chocks available (metal or plastic)?

Yes

No

Is the radio present and functional?

Yes

No

Are there no leaks in hydraulic pipes or tanks?

Yes

No

Are there no loose items or excess dirt in bins?

Yes

No

Is the vehicle neat and clean overall?

Yes

No

Are windshield wipers in good working condition?

Yes

No
