

Forest Fire Prevention & Emergency Preparedness Checklist

Forestry & Environmental Project

FOREST FIRE PREVENTION & EMERGENCY PREPAREDNESS – HIGH PRIORITY

Firefighting equipment is available and in working condition.

☐ Yes☐ No☐ NA

FOREST FIRE PREVENTION & EMERGENCY PREPAREDNESS – HIGH PRIORITY

Fire hazard zones within the project area are identified and mapped.

☐ Yes☐ No☐ NA

Fire break lines are created and maintained along vulnerable areas.

☐ Yes☐ No☐ NA

Fire watch towers or lookout points are established.

☐ Yes☐ No☐ NA

Water storage points or water tanks are accessible for fire control.

☐ Yes☐ No☐ NA

Early fire warning & detection systems are installed.

☐ Yes☐ No☐ NA

Seasonal patrolling schedules are implemented, especially in dry months.

☐ Yes☐ No☐ NA

Controlled burning (if practiced) is conducted under expert supervision.

Yes

No

NA

Workers and community members are trained on fire prevention awareness.

Yes

No

NA

Emergency contact numbers and fire reporting procedures are displayed clearly.

Yes

No

NA

Dry leaves, brush, and fuel buildup are regularly cleared.

Yes

No

NA

No open-fire cooking or smoking is permitted inside forest operations.

Yes

No

NA

Spark arresters are installed on generators, chainsaws, or vehicles.

Yes

No

NA

Fire-resistant clothing or PPE is available for response teams.

Yes

No

NA

Emergency evacuation routes are marked and unobstructed.

Yes

No

NA

Communication systems (radio, mobile networks) function in remote zones.

☐ Yes☐ No☐ NA

Incident response teams are designated and trained.

☐ Yes☐ No☐ NA

Fire drills are conducted regularly.

☐ Yes☐ No☐ NA

Fire danger level signboards are updated based on weather conditions.

☐ Yes☐ No☐ NA

Fuel and chemical storage areas are located far from fire-prone zones.

☐ Yes☐ No☐ NA

Reforested or newly planted areas are monitored for fire vulnerability.

☐ Yes☐ No☐ NA

Grazing and human access are controlled during high fire-risk periods.

☐ Yes☐ No☐ NA

First aid kits are available at fire response stations.

☐ Yes☐ No☐ NA

Coordination protocols with local forest department/fire brigade exist.

☐ Yes☐ No☐ NA

Fire response vehicles or access paths are operational.

☐

Yes

☐

No

☐

NA

Community fire watch volunteer groups are active.

☐

Yes

☐

No

☐

NA
