

Environmental Waste & Pollution Control Checklist

Forestry & Environmental Project

ENVIRONMENTAL WASTE & POLLUTION CONTROL – HIGH PRIORITY

Waste is segregated into biodegradable, recyclable, and hazardous categories.

Yes

No

NA

Waste storage areas are clean and well-organized.

Yes

No

NA

Hazardous waste is stored in approved containers and labeled correctly.

Yes

No

NA

No burning of waste is carried out on-site.

Yes

No

NA

Waste disposal follows authorized and approved disposal methods.

Yes

No

NA

Recycling programs are in place for plastic, metal, paper, and organic waste.

Yes

No

NA

Composting is practiced for biodegradable waste where applicable.

Yes

No

NA

Wastewater treatment systems are functional and maintained.

Yes

No

NA

No untreated wastewater is discharged into land or natural water bodies.

Yes

No

NA

Air emissions from equipment are within permissible limits.

Yes

No

NA

Dust control measures are implemented in high-dust zones.

Yes

No

NA

Noise levels in operational areas meet regulatory standards.

Yes

No

NA

Fuel and chemical storage areas are protected from spills and leaks.

Yes

No

NA

Spill response kits are available and accessible.

Yes

No

NA

Staff are trained in waste management and spill handling procedures.

Yes

No

NA

Used oil and lubricants are collected and disposed of safely.

Yes

No

NA

Batteries and electronic waste (e-waste) are handled through approved recyclers.

☐ Yes☐ No☐ NA

Biomedical or sanitary waste is disposed as per health safety standards.

☐ Yes☐ No☐ NA

Landfills or dumping areas (if present) are managed to prevent contamination.

☐ Yes☐ No☐ NA

Odor control measures are implemented in waste handling zones.

☐ Yes☐ No☐ NA

Stormwater drains are free from waste clogging.

☐ Yes☐ No☐ NA

Pollution control equipment is maintained as per manufacturer guidelines.

☐ Yes☐ No☐ NA

Air filters, chimneys, and scrubbers are cleaned regularly.

☐ Yes☐ No☐ NA

Plastic bag and single-use disposable restrictions are enforced.

☐ Yes☐ No☐ NA

Waste transportation vehicles are covered and leak-proof.

☐ Yes☐ No☐ NA

Hazard signage is displayed in waste storage and handling areas.

☐ Yes☐ No☐ NA

Environmental monitoring records are maintained systematically.

☐ Yes☐ No☐ NA

Any pollution incidents are reported and corrective action taken.

☐ Yes☐ No☐ NA

Community and worker awareness programs on waste reduction are active.

☐ Yes☐ No☐ NA

Waste and pollution control measures comply with legal regulations.

☐ Yes☐ No☐ NA
